

Loop Road & Overnight Parking

1. The Loop road has been reconstructed to provide:
 - A two way up and down on what was previously the down road with a walkway adjacent to the new "up" lane.
THIS WALKWAY IS NOT FOR PARKING.
 - A one-way one lane down road providing access to lodges and overnight carparks on what was the top section of the previous up road. This new down road links back to the new two lane road through the carpark immediately below Boomerang Ski Club Lodge.
 - A new road terminus and 5 minute drop off above Iwikau Shelter.
2. The photo illustrates the location of all overnight carparks, over 410, which will primarily be reserved and managed for use by those staying in club lodges
